<sup>1</sup> A contract must be in force to garner a death benefit. The value is not available as a lump sum withdrawal or at surrender. Please see the prospectus for details and state-specific information.

<sup>2</sup> Not available in all states. The issue age is 0-80 (based on the oldest owner). The optional benefit is available for an additional charge in addition to the ongoing fees and expenses of the variable annuity. Once elected, the benefit cannot be canceled or changed. The annual step-up occurs each contract anniversary and will cease prior to the oldest owner's 85th birthday or upon death of the owner, whichever occurs first. Please see the prospectus for additional information.

<sup>3</sup> Asset allocation (and/or diversification) does not ensure a profit or guarantee against loss; it is a method used to help manage risk.

<sup>4</sup> We do not currently charge for reallocations, but we reserve the right to charge \$15 for each allocation after the 15th transfer in a contract year.

<sup>5</sup> Dollar cost averaging does not ensure a profit or protect against loss in a declining market. Such a plan involves continuous investment in securities regardless of fluctuating price levels of such securities. Investors should consider their financial ability to continue purchases through periods of low price levels.

<sup>6</sup> Separate account annual expenses include mortality and expense (M&E) and asset-based administrative charges.

<sup>7</sup> For policies less than \$50,000, the current quarterly maintenance fee is \$40 annualized. The guaranteed maximum maintenance fee is \$15 per quarter.

<sup>8</sup> Surrender charges are assessed on amounts withdrawn in excess of the free withdrawal amount and are based on the number of years since each premium payment.

<sup>9</sup> The free withdrawal amount is available for withdrawal without a surrender charge. The amount is calculated at the beginning of each policy year. The annual free withdrawal amount is noncumulative. While you always have access to your money, for withdrawals taken in excess of this amount, a surrender charge will apply. Remaining premium is the sum of the premium deposits made, less the partial withdrawals taken.
