### A. Type of Contract

- Non-qualified Annuity Contract.** Payments under the selected Payout Option below must commence no later than one year after the date of death triggering a death benefit claim as defined in the Contract.
- Individual Retirement Annuity (IRA) Contract.** If the Owner dies on or after the required beginning date within the meaning of Internal Revenue Code section 401(a)(9), a required minimum distribution for the calendar year of the Owner's death (determined in accordance with the requirements of that section) might need to be paid before the remaining interest is applied to the selected Payout Option. Payments under the selected Payout Option must commence on or before the end of the calendar year following the calendar year in which the Owner dies (or, if later, the end of the calendar year following the calendar year in which the Owner would have attained age 72, provided that the Beneficiary is the Owner's surviving spouse and the Owner dies prior to the required beginning date).

### B. Restriction Type

- Full restriction:** I/We acknowledge that this Beneficiary's entire interest in the death benefit will be paid under the Payout Option selected in section C, and no other payments or distributions will be made or permitted.
- Partial restriction:** I/We acknowledge that \_\_\_\_% of this Beneficiary's interest in the death benefit, determined as of the date of death of any Owner (or Annuitant if the Contract is held by a non-natural entity), will be paid in a lump sum and the remainder of the Beneficiary's interest in the death benefit will be paid under the Payout Option selected in section C, and no other payments or distributions will be made or permitted.
- Removal of restriction:** I/We acknowledge that the above restriction on the Beneficiary's interest in the death benefit will be removed on the earlier of the date that is \_\_\_\_ years from the date of death of any Owner (or Annuitant if the Contract is held by a non-natural entity), or the date the Beneficiary attains age \_\_\_\_\_. If the Beneficiary is living at such time, the restriction will be removed to the extent of \_\_\_\_% of the Beneficiary's interest in the death benefit, but only if payment of the Beneficiary's interest in the death benefit has not commenced in the form of annuity payments under Option 1, 2, or 3 in section C. The Beneficiary is responsible for providing proof of the events terminating the restriction.

### C. Payout Option

- Option 1 – Life annuity:** The interest will be distributed in the form of fixed, level annuity payments.

If the Contract is a **non-qualified annuity Contract**, annuity payments will be made as long as the Beneficiary is alive. For instance, if the Beneficiary dies immediately after the first annuity payment is made, only that one annuity payment will be made.

If the Contract is an **IRA annuity Contract**, annuity payments will be made as long as the Beneficiary is alive (or, if there are multiple Beneficiaries, for as long as the oldest Beneficiary is alive, unless an exception under federal income tax law applies). For instance, if the Beneficiary (or oldest Beneficiary, if applicable) dies immediately after the first annuity payment is made, only that one annuity payment will be made. **IMPORTANT:** This option is not effective if the Owner dies on or after the required beginning date within the meaning of Internal Revenue Code section 401(a)(9).

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually

- Option 2 – Life annuity with a period certain:** The interest will be distributed in the form of fixed, level annuity payments.

If the Contract is a **non-qualified annuity Contract**, annuity payments will be made as long as the Beneficiary is alive, with payments guaranteed to be made for a period certain of \_\_\_\_ years (only 10 or 20 years may be selected). **IMPORTANT:** The period certain may not extend beyond the life expectancy of the Beneficiary as determined under the IRS Single Life Expectancy Table for Beneficiaries.

If the Contract is an **IRA annuity Contract**, annuity payments will be made as long as the Beneficiary is alive (or, if there are multiple Beneficiaries, for as long as the oldest Beneficiary is alive, unless an exception under federal income tax law applies), with payments guaranteed to be made for a period certain of \_\_\_\_ years (only 10 or 20 years may be selected). **IMPORTANT:** This option is not effective if the Owner dies on or after the required beginning date within the meaning of Internal Revenue Code section 401(a)(9). Also, the period certain may not extend beyond the life expectancy of the Beneficiary (or the oldest Beneficiary, if applicable) as determined by the IRS Single Life Expectancy Table for Beneficiaries.

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually

### C. Payout Option (continued)

- Option 3 – Annuity for a period certain (10 or 20 years):** The interest will be distributed in the form of fixed, level annuity payments.

If the Contract is a **non-qualified annuity Contract**, annuity payments will be made for a period certain of \_\_\_\_ years (only 10 or 20 years may be selected). **IMPORTANT:** The period certain may not extend beyond the life expectancy of the Beneficiary as determined by the IRS Single Life Expectancy Table for Beneficiaries.

If the Contract is an **IRA annuity Contract**, annuity payments will be made for a period certain of \_\_\_\_ years (only 10 or 20 years may be selected). **IMPORTANT:** The period certain generally may not extend beyond the life expectancy of the Beneficiary (or, if there are multiple Beneficiaries, the life expectancy of the oldest Beneficiary, unless an exception under the IRS Single Life Expectancy Table for Beneficiaries applies). However, the period certain also may not extend beyond the life expectancy of such Beneficiary or, if longer, the life expectancy of the Owner in the year of death, if the Owner dies on or after the required beginning date within the meaning of Internal Revenue Code section 401(a)(9).

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually

- Option 4 – Systematic withdrawals:** The interest will be distributed in the form of systematic withdrawals from the Contract until the Accumulation Value is fully distributed.

- Required Minimum Distribution (IRA annuity Contracts only).**

The total amount to be paid each calendar year, beginning with the calendar year following the calendar year in which the Owner dies, is the required minimum distribution determined each calendar year in accordance with the requirements of Internal Revenue Code section 401(a)(9) by dividing the account balance as of the end of the previous calendar year by the life expectancy of the Beneficiary (or the oldest Beneficiary if there are multiple Beneficiaries), subject to certain exceptions in the tax law. For this purpose, the account balance is the dollar amount credited to the Beneficiary under the Contract plus the actuarial present value of any additional benefits provided under the Contract.

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually

- Greater of a specified amount and the Required Minimum Distribution for the calendar year (IRA annuity Contracts only).**

The total amount to be paid each calendar year, beginning with the calendar year following the calendar year in which the Owner dies, will be the greater of the required minimum distribution for the calendar year (determined as described above under this Option 4) or \$ \_\_\_\_\_ (not to exceed the Accumulated Value).

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually

- Greater of a specified amount or life expectancy payout (non-qualified annuity Contracts only).**

The total amount to be paid each calendar year will be the greater of the life expectancy payout or \$ \_\_\_\_\_ (not to exceed the Accumulation Value). The first payment must be taken within one year of the date of the Owner's death.

**Payout Frequency:**     Monthly     Quarterly     Semi-annually     Annually
