Now, you can practically eliminate the hassles of setting up a well-rounded retirement savings program just by taking advantage of the simplified investment options from the LiveWell Mutual Fund IRA.<sup>4</sup>

#### Simple.

#### One-stop solution with over 160 mutual fund options

The LiveWell Mutual Fund IRA gives you the freedom to invest with a wide variety of the nation's most well-known fund managers and mutual funds. But instead of working with each on an individual basis, you save time and money by investing in one easy-to-manage IRA.

With over 160 mutual funds from 20+ fund families to choose from, you have maximum flexibility to tailor your portfolio to your risk tolerance and investment goals. From conservative bond funds to growth-oriented mutual funds to alternative investments, the LiveWell Mutual Fund IRA delivers a wide spectrum of investment options.

#### The LiveWell Mutual Fund IRA – a smart solution

When you change jobs or retire, you have choices to make with your retirement savings. In some cases, it may be beneficial to leave money in your current retirement plan. You may also consider rolling assets into a new employer plan, receiving installments or annuities (if available), cashing out your account value, or rolling assets into an IRA like the LiveWell Mutual Fund IRA.

The LiveWell Mutual Fund IRA is specifically designed to help save you time and money when it comes to your retirement planning.

<sup>1</sup> Excessive trading policy: More than one "round trip" involving the same investment option within a 60-calendar-day period is considered excessive trading. Please review the Disclosure Statement & Custodial Account Agreement of the LiveWell® Mutual Fund IRA booklet.

<sup>&</sup>lt;sup>2</sup> Dollar cost averaging does not ensure profit or protect against loss in a declining market. Such a plan involves continuous investment in securities regardless of fluctuating price levels of such securities. Investors should consider their financial ability to continue purchases through periods of low price levels.

<sup>&</sup>lt;sup>3</sup> Dollar cost averaging and automatic rebalancing are not available together.

<sup>&</sup>lt;sup>4</sup> Statements regarding product simplicity are based on current research and comparison and do not completely compare all product features. The key factors for the decision include: 1) investment options, 2) fees and expenses (including both investment options and account-related fees and expenses), 3) differing service levels available, 4) withdrawal penalties, 5) creditor and legal protections, 6) required minimum distributions, 7) employer stock, 8) income needs, and 9) tax impact and penalties.
