The LiveWell® Plus Mutual Fund IRA helps you make even more of your retirement savings with a 3% account bonus on all contributions made within the first 6 months of opening your account.¹

Here's how it works:

Let's say you open a LiveWell Plus Mutual Fund IRA with an initial contribution of \$100,000. An additional \$3,000 will immediately be added to your account.

That's a great start. But your 3% bonus doesn't have to end there. You are free to make additional contributions ... and collect an additional 3% bonus on those funds ... for the next 6 months.

Imagine adding an additional \$50,000 within 3 months. That's a \$1,500 savings bonus for your account.

Maybe you contribute another \$50,000 before the end of the sixth month. That's another \$1500 bonus

It all adds up to a smart solution to help you make the most of your retirement savings.

When you make a contribution, including a rollover contribution within six months of opening your IRA, Sammons Institutional Group®, Inc. will add an additional 3% based on the net contribution(s) (adjusted for any prior withdrawals) to your IRA ("account bonus"). The amount of the account bonus is calculated as a percentage of your net contribution(s). The account bonus becomes part of the IRA at the same time as the corresponding net contribution(s).

² Excessive trading policy: More than one "round trip" involving the same investment option within a 60-calendar-day period is considered excessive trading. Please review the Disclosure Statement & Custodial Account Agreement of the LiveWell® Plus Mutual Fund IRA booklet.

³ Dollar cost averaging does not ensure profit or protect against loss in a declining market. Such a plan involves continuous investment in securities regardless of fluctuating price levels of such securities. Investors should consider their financial ability to continue purchases through periods of low price levels.

⁴ Dollar cost averaging and automatic rebalancing are not available together.

Easy-to-understand investing

The LiveWell Plus Mutual Fund IRA helps take the complexity out of retirement investing with streamlined options that help you minimize paperwork, while still giving you access to some of the nation's most popular mutual fund managers.

First, you can consolidate multiple investments into one IRA without giving up a wide range of investment options.

This can help make it easier to understand your retirement investments and may even help you reduce fees because you'd be working within one IRA instead of multiple IRAs.¹

With the help of your financial professional, you can then tailor your portfolio to your risk tolerance and investment goals:

- If market ups and downs make you nervous, you could select conservative bond funds to reduce volatility.
- If you're looking for upside growth potential based on market returns, you might consider growth-oriented equity funds.
- If you'd prefer a more active investing portfolio, you could select funds with hedging opportunities.

As an added advantage, you are <u>not locked into a single investment strategy</u>. If you're like many Americans, you might start out with a growth-oriented plan, which might transition to something more conservative in later years.

The LiveWell Plus Mutual Fund IRA makes it easy to change your fund options as time goes on because there are no transaction fees to worry about.²

Investment options for:

Conservative Investors

Growth-Oriented Investors

Aggressive Investors

Fund options and associated standard mutual fund fees are as of 6/30/2024. Standard mutual fund fees, ranging from 0.62%-2.10% net, also apply.

- ¹ Before making any rollover decisions, you must carefully consider all available retirement plan options including leaving the money in the current plan (which may be beneficial in certain circumstances), rolling the money to the new employer's plan, installment and annuity payments (if available) and IRA rollovers. The key factors for the decision include: 1) investment options, 2) fees and expenses (including both investment options and account-related fees and expenses), 3) differing service levels available, 4) withdrawal penalties, 5) creditor and legal protections, 6) required minimum distributions, 7) employer stock, 8) income needs, and 9) tax impact and penalties. Tax consequences will vary and you should consult with a tax or legal professional.
- ² Excessive trading policy; more than one "round trip" involving the same investment option within a 60-calendar-day period is considered excessive trading. Please review the Disclosure Statement & Custodial Account Agreement of the LiveWell® Plus Mutual Fund IRA booklet

Case study: Planning ahead for a solid retirement

Picture Linda. She's 55 ... works as an executive assistant ... and plans to keep working for another 10 years.

While she's worked at her current company for 15 years, she also has retirement savings from previous employers that she's never done anything with. Those past employer accounts total \$250,000.

If Linda rolls the savings from her previous employers into one LiveWell Plus Mutual Fund IRA, she'll immediately receive a 3% bonus of \$7,500.

That's additional money that goes straight into her account and would have the potential to keep growing.

Plus, if she decides to add more money within the next 6 months, she'll receive a 3% account bonus on those funds, too.

LiveWell Plus helps you do more with your money

3% account bonus helps you build your retirement savings

Asset allocation (and/or diversification) does not ensure a profit or guarantee against loss; it is a method to help manage risk.

Before making any rollover decisions, you must carefully consider all available retirement plan options including leaving the money in the current plan (which may be beneficial in certain circumstances), rolling the money to the new employer's plan, installment and annuity payments (if available) and IRA rollovers. The key factors for the decision include: 1) investment options, 2) fees and expenses (including both investment options and account-related fees and expenses), 3) differing service levels available, 4) withdrawal penalties, 5) creditor and legal protections, 6) required minimum distributions, 7) employer stock, 8) income needs, and 9) tax impact and penalties. Tax consequences will vary and you should consult with a tax or legal professional.

Investing in mutual funds involves risk, including potential loss of investment. You should consider the fund's investment objectives, risks, charges, and expenses carefully before investing. The prospectus and/or summary prospectus contain this and other information. You may contact your financial professional, visit srslivewell.com/prospectus, or call 866-747-3421 to obtain a current fund prospectus. Please read it carefully before investing.

You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund and its affiliates, the fund's sponsor, have no legal obligation to provide financial support to the fund, and you should not expect that the sponsor will provide financial support to the fund at any time.

You should also consider the expenses of the IRA program before investing. You must receive a fund prospectus and the LiveWell® Mutual Fund IRA disclosure form before investing.

IRAs are considered a long-term investment. Withdrawals from a traditional or SEP-IRA are generally subject to income taxes, and if taken before age 59½, may be subject to an additional 10% IRS tax penalty. Withdrawals from a Roth IRA are generally not subject to income tax provided certain requirements are met.
