

An investment in the LiveWell Dynamic Annuity® is subject to the risk of poor investment performance and can vary depending on the performance of the investment options you choose. Each investment option has its own unique risks. You should review the investment options before making an investment decision. The prospectus and/or summary prospectus contain this and other information. You can visit srlivewell.com/prospectus, or call 866-747-3421 to obtain a current prospectus for the LiveWell Dynamic Annuity and its underlying investment options.

Registered index-linked variable annuity products are complex insurance and investment vehicles. Upside growth potential is limited by contract terms, and downside protection is subject to level selected. You should read the prospectus carefully. Annuities are long-term investment vehicles and are subject to surrender charges for early withdrawals.

The risk of loss occurs each time you move into a new Cycle Indexed Account after the end of an indexed term. The protection level option selected in the indexed account helps protect you from some downside risk. If the negative return is in excess of the protection level selected, there is a risk of loss of principal. Protection levels that vary based on the index and term selected are subject to change and may not be available with every option. Please see the prospectus for details.
