Key terms

- **Cap rate:** The maximum rate that will be credited to a Cycle on the maturity date.
- **Participation (Par) rate:** The percentage of the underlying index's positive return that's credited to the Cycle.
- **Buffer:** Provides first-loss protection up to the specified percentage chosen (10%, 20%, 30%). If losses extend beyond the buffer, you absorb the additional losses.
- **Floor:** Provides stop-loss protection once losses meet the floor percentage (10%).

Cycle Transition Rules

Your Contract must be active to enter a Cycle, with active allocation instructions on file to direct your investment into the Cycle. Cycles start on the third Thursday of each month. Once a Cycle has launched, additional investments into that specific Cycle are not allowed. Once instructions are received and in good order, money will transfer from the Default Account to the Cycle Index Account on the Cycle Start Date. If a Cycle does not launch, money will remain in the Default Account until we receive new allocation instructions. As funds transfer through the Default Account, the value is based on the market value of the fund. Therefore, the value could be more or less than the original investment.

Cycle Bailout

Should the final rate on any Cycle be unsatisfactory to you, you may bail out of the Cycle(s). To exercise your right to bail out from a Cycle, you must notify us within 10 business days from the date the final rate notice was sent. Ten-day timeline may vary by state but will be no less than 10 business days. The bailout proceeds will be equal to the entire amount you allocated to the Cycle on the Cycle Start Date. If you choose to exercise this right, you must provide reallocation instructions.

NOT FDIC/NCUA INSURED, MAY LOSE VALUE INCLUDING LOSS OF PRINCIPAL, NO BANK/CU GUARANTEE, NOT A DEPOSIT, NOT INSURED BY ANY FEDERAL GOVERNMENT AGENCY.
