DEFINITIONS

For your convenience, below is a glossary of the special terms we use in this summary prospectus. These terms are generally in bold face type throughout the document.

Accumulation Value means the sum of the amounts you have in the **investment option(s)** of our **separate account** under your in force Contract. This may also be referred to as account value.

Beneficiary means the person or persons to whom the Contract's **death benefit** will be paid in the event of the death of the **owner**.

Business Day means any day the New York Stock Exchange is open for regular trading. Our **business day** ends when the New York Stock Exchange closes for regular trading, generally 3:00 p.m. Central Time.

Company (or we/us) means Midland National Life Insurance Company.

Contract Anniversary means the same date in each **Contract year** as the **issue date**.

Contract Quarter means a three-month period that starts on the same date as the **issue date** in each three-month period. For this purpose, if the **issue date** is not a calendar date in every month, then we look forward to the first day of the next calendar month. For example, assume a Contract is issued on January 31st; **Contract quarters** will begin on the first day of each quarter (May 1, July 31, and October 31).

Contract Year means a year that starts on the **issue date** or on each **Contract anniversary** thereafter.

Customer Service Center means where you must send correspondence, service or transaction requests, and inquiries to P.O. Box 9261, Des Moines, Iowa, 50306-9261 or via fax (866) 511-7038. Death Benefit means the amount that we will pay to the **beneficiary** in the event of the death of the **owner** if the Contract is still in-force and in the Accumulation phase. The amount of the **death benefit** is based on which **death benefit** option is elected and determined as of the **business day** that our **Customer Service Center** receives the required documentation in **good order**.

Good Order means all of the information necessary to process a transaction, as we determine in our discretion. Transaction requests will generally be processed on the **business day** they are received at the **Customer Service Center** as long as the request is in **good order**.

Investment Option means an option or division of our **separate account** which invests exclusively in one share class of one investment portfolio of a Trust or Fund (collectively "Portfolio").

Issue Date means the date the Contract goes into effect and from which **Contract anniversaries**, **Contract months**, **Contract quarters**, and **Contract years** are determined.

Owner means the person(s) or entity that is named in the application or on the latest change filed with us who is entitled to exercise all rights and privileges provided in the Contract.

Subaccount means a division of our Registered Separate Account which invests exclusively in one share class of one Investment Portfolio. We may use this term interchangeably with the term "Investment Division."

Risks		Location in the Prospectus
Risk of Loss	You can lose money by investing in this Contract.	Principal Risks of Investing in the Contract
Not a Short-Term Investment	The Contract is not a short-term investment and is not appropriate for an investor who needs ready access to cash. The Contract is designed to aid in long-term financial planning and provides for accumulation of capital on a tax-deferred basis for retirement or other savings needs. A surrender charge may apply for up to seven years from the last premium payment if an Optional Value Endorsement is elected, which would reduce the amount received.	Principal Risks of Investing in the Contract
Risks Associated with Investment Options	An investment in the Contract is subject to the risk of poor investment performance and can vary depending on the performance of the investment options you choose. Each investment option has its own unique risks. You should review the investment options before making an investment decision.	Principal Risks of Investing in the Contract
Insurance Company Risks	Investing in the Contract is subject to the risks related to the Company. Any obligations, guarantees, or benefits are subject to the claims-paying ability of the Company, and our long term ability to make such payments, and are not guaranteed by any other party. There is no guarantee that we will be able to meet our claims paying obligations; there are risks to purchasing any insurance product. More information about the Company, including financial strength ratings, is available upon request by calling (866) 747-3421.	Principal Risks of Investing in the Contract

Selection of certain benefits (i.e. Optional Value Endorsements) may subject you to a surrender charge. Exchanges	Some financial professionals may have a financial incentive to offer you a new contract in place of the one they already own. You should only exchange your contract if you determine, after comparing the features, fees, and risks of both contracts, that it is preferable for you to purchase the new contract rather than continue to own the existing contract.
